

The students get to interact with students from other Dutchess County schools and create new life-long connections. These connections evolve and those who attend CTI become part of a family.

ARE YOU
READY
FOR THE
REAL
WORLD?

HERE'S **WHAT**
REAL
WORLD
LEARNING IS!

HERE'S WHERE REAL WORLD LEARNING STARTS!

The Career and Technical Institute (CTI) offers hands-on training. Receive high school and college credits while working with students from all over the county. CTI offers work-study opportunities, membership in nationally recognized organizations, and a prestigious Career and Technical endorsement on your Regents Diploma. CTI will prepare you whether you are ready to work or college bound!

Talk with your guidance counselor or call us at 845.486.8001 for more information about what CTI can offer you!

www.dcbooces.org/CTI

The teachers here at CTI simply love teaching. When they push you know it's because they know you can do better. They want you to strive for your best. The teachers here believe in you. Soon after you won't need the teacher to push you anymore, because you have learned to push yourself. The best feeling in the world is when you've completed something that you're proud of.

Jessica
Millbrook High School

You're not doing all book work when you come here. You actually get to get up and do what you're learning about, rather than just reading about it.

Katie
FDR High School

CTI offers something most schools cannot: hands-on experience. It's one thing to discuss a trade. Actually working in one is something completely different. Students are provided with the necessary equipment to learn their respective crafts, and teachers who know how to utilize them.
