# Introduction

Through cooperative efforts with our 13 component school districts, Dutchess BOCES offers a wide variety of educational programs and support services to children and adults in Dutchess County. When two or more districts share programs and services, costs are reduced. Participating districts also benefit financially because they receive state aid (above and beyond local district state aid) to help pay for those programs and services.

Dutchess BOCES stands ready to develop new services tailored to the needs of two or more districts. Please direct any suggestions for new services to the District Superintendent or the appropriate division head. For your convenience, telephone numbers of the program administrators are listed in this guide. We would be pleased to answer any questions you may have regarding our offerings.

We ask that districts communicate the shared services they plan to request for the 2017-2018 school year by early February (see page 3). Final commitments for these services are due May 1, 2017. We are confident that our collaboration with our component districts will continue to improve the education of students throughout Dutchess County and beyond.

Richard M. Hooley, Ed.D.

# Business Services

Dutchess BOCES offers a series of cooperative business service programs that provide cost savings, improve service delivery and increase efficiency through shared services among the component districts. The component district's share of BOCES administrative, lease and capital costs is based either on the Resident Weighted Average Daily Attendance (RWADA) or on real property valuation.
