

Senior Project

The following activities should be included in a senior project to be counted toward work based learning hours for students working toward the CDOS Credential.

- Research career of interest within a career pathway and the options of career choices within the career pathway
- Research post-secondary training needed to achieve an entry level position in the chosen career of interest
- Participate in at least one job shadowing experience with a professional in the chosen career
- Interview professionals currently working in the career
 - A list of questions can be provided by the teacher to assist the student with the interviews
- Research and document projected future job opportunities in the career of interest
- Complete a research paper based on the research and activities the students has participated in
- Prepare and deliver a presentation to the students peer group that includes the findings of the student research of the career of interest
